

## POSITION DESCRIPTION

<b>Position:</b>	Senior Investment Manager, Agriculture Investment Team (AG Team)
<b>Based:</b>	Copenhagen, Denmark. Other locations within Europe may be considered.
<b>Reports to:</b>	Managing Director, AG Team
<b>Contract:</b>	Full time, permanent
<b>Commencement:</b>	As soon as practically possible

Do you want to become a member of a growing natural capital asset management company that is looking to expand our footprint internationally within agricultural investments? If so, IWC AG Team is the right place for you! We are currently looking for a Senior Investment Manager to join us.

### **The company**

We are a global niche player in natural capital asset management. Since 1991 we have worked with timberland investments globally. Investments in agriculture started in 2017 with farmland investments in Denmark. Our goal is to build a strong global platform as an agricultural asset management company. Our clients are institutional investors primarily from Europe.

### **Job description**

#### **The role**

We are looking for an investment professional to join our team based in Copenhagen (Denmark).

Key responsibilities include:

- Identifying investment opportunities in Europe
- Sourcing, analyzing, and screening investment opportunities
- Completing commercial, legal, and technical due diligence in cooperation with external advisers
- Preparing investment recommendations and other documents and reports for the Investment Committee and clients
- Participating in the implementation of new investments
- Key driver for promoting and branding IWC AG Team as a global sustainable investment and asset management provider
- Contribute to business development with investment ideas and strategy generation

Flexibility to travel on a regular basis within Europe and potentially other locations is a key requirement of this role.

### **The Job**

- Position with established growing natural capital investment manager with large scale institutional capital
- Developing new markets to invest in, sourcing, negotiating, and executing deals
- Rewarding and varied role with flexible working options
- Competitive salary package depending on experience
- Significant role in shaping an investment portfolio during a period of strong growth
- Professionally stimulating environment with the opportunity to work in a diverse, international team

### **About you**

The ideal candidate will be/have:

- A seasoned - a minimum of five (5) years of experience in a similar role - and enthusiastic professional who is keen to work in a collaborative environment, but who also thrives working independently and under pressure to meet critical deadlines
- A tertiary degree in finance, (agricultural) economics, or a related field, preferably with further post graduate study
- Ideally a background in agriculture or agricultural investment, but a strong consideration will also be given to candidates with experience within other alternative asset classes such as renewable energy or real estate
- Demonstrated understanding and experience of working with confidential and sensitive information
- Strong inter-personal skills and an ability to communicate well both verbally and through written form
- Advanced Microsoft Office skills and demonstrated proficiency in financial modelling.
- Strong understanding of certification and ESG principles, and experience in delivery of projects to these standards
- Demonstrated ability to develop and enhance networks with key stakeholders

Ideally the position will be based in Copenhagen, but other locations may be considered.

### **How to apply**

Further information is available from Managing Director Dennis Lanther, ([dla@iwc.dk](mailto:dla@iwc.dk), +45 23638360). Enquiries and Applications will be treated in strict confidence. We will review and conduct interviews on an ongoing basis.

**Cover letter, CV, and relevant enclosures should be submitted by e-mail.**
